

STATE OF WASHINGTON
OFFICE OF GOVERNOR JAY INSLEE

May 5, 2021

Omid Ghaffari-Tabrizi
Director, Cloud Policy
Internet Association

Dear Mr. Ghaffari-Tabrizi:

Thank you for your interest in serving on the Cloud Transition Taskforce. I am delighted to appoint you to the Taskforce. Congratulations, and welcome to the team.

As you know, the public sets high professional and ethical standards for those in public office. It is important to me that everyone serving in my administration always works to maintain the trust of those we serve. That means that we serve to the highest of ethical principles, place the public's interest above any personal or private interest, and always ensure that state resources are efficiently used for public purposes only.

My goals are to grow Washington's economy, strengthen our schools, and promote a culture of performance and efficiency in state government. You can help me achieve these goals. I ask that you take personal responsibility for making sure that the Cloud Transition Taskforce operates in a way that is transparent, responsive, and focused on implementing lean management tools to achieve results. These are the public's expectations, as well as my own.

Serving the citizens of Washington is a real privilege, and I hope you find this to be a rewarding experience. Thank you for your willingness to join me in serving the people of Washington.

Very truly yours,

Jay Inslee
Governor
